Summary

Enthusiastic and detail-oriented graduate seeking an Automation Testing role. Proficient in software testing principles and familiar with automation tools like Selenium and JUnit. Strong foundation in programming languages such as Java, with knowledge of Agile methodologies and the software development lifecycle (SDLC). Eager to contribute to a dynamic team, enhance software quality, and develop skills in a challenging environment.

Education

Bharati Vidyapeeth College of Engineering   09/2020 − 05/2024
Bachelor of technology in Information Technology   *Pune, Maharashtra*
Courses: *Operating Systems, Data Structures, Analysis Of Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases*

Experience

Bajaj Finserv   07/2023-09/2023
Intern - Java Trainee   *Pune, Maharashtra*
- Developed 5+ Java applications and enhanced code efficiency by 20% through optimization techniques during a 3-month internship at Bajaj Finserv, while also conducting rigorous testing to ensure software quality.
- Collaborated on 3+ cross-functional projects, demonstrating strong teamwork and communication skills while implementing Java-based solutions and performing automated and manual testing to validate functionality.

Projects

Automated Testing Framework with Java and Selenium | Link   January 2024
- Built a scalable test automation framework using Java, Selenium, and TestNG based on the Page Object Model (POM), improving test maintainability by 40%.
- Integrated ExtentReports, Log4j, and SimpleJavaMail, achieving 100% automated reporting through HTML reports, logging, and email notifications.
- Optimized test execution efficiency by 30% with Maven, parallel testing, and WebDriver context management in TestNG.

Skills

Automation Tools   Selenium, Appium, TestNG, Cucumber
Programming Languages   Java, SQL, HTML, CSS
Version Control system   Git, GitFlow, and GitHub
Performance Testing Tool   Jmeter
API Testing Tools   Postman
Defect Tracking   JIRA, Bugzilla
Tools   Excel, Power BI, VS CODE
Soft Skills   Effective Communication, Team Collaboration, Problem Solving, Attention to Details, Leadership

Leadership / Extracurricular

Information Technology Student Association (ITSA)   07/2022 − 05/2023
Head Treasurer   *BVUCOEP*
- Spearheaded financial management for the association, maintaining accurate records, preparing 10-20 reports annually, and increasing fundraising events by 20% while securing 10% more in sponsorships, showcasing strong organizational and leadership skills.

Training & Placement Cell   07/2021 − 05/2022
Co-ordinator   *BVUCOEP*
- Facilitated communication between 150+ students and 20+ companies, enhancing employability by 30% through strategic workshops, managing a database of 300+ student profiles for efficient job matching, and strengthening teamwork and collaboration skills in recruitment activities.

Certificate

- Introduction to Operating System : IIT Madras Certification course
- Data Structure : Walchand College of Engineering, Sangli-MH
- Software Testing and Automation Specialization by University of Minnesota on Coursera
